

This classic 1964 Impala has a beautiful nearly perfect older restoration to original, right down to the AC Delco battery! The car has the 327ci/300hp engine and powerglide transmission. It was previously a show car which won the Antique Automobile Club of America's National First Prize Award in 1994 and Second Place in the DELMARVA (Delaware, Maryland, Virginia) Late Great Chevy Show in 1990. This is not some backyard restoration project. The car is still in outstanding condition. It has an antique value of between \$26,500 and \$30,000, which can be researched. My asking price is \$17,000 OBO NEG. This beauty will not depreciate in the future. You will NOT be disappointed when seeing it in person. If you are interested please contact me and make me an offer and we can go from there! Please contact: Curtis Gill @ (229)455-3102 or email: curtgill@windstream.net
